

Book Shelf

THE BOOK SHELF

Here is a shelf full of resources which has been specially prepared for you as a DIET faculty

Overview

What it contains?

This section presents books that are classified under three categories:

1. **Essential Readings** contain books which you are required to read and work on under one or the other section of the programme
2. **Desirable Readings** contain which are strongly recommended, though not essential, for you to read and understand.
3. **For Expanding your Knowledge** contains books which would help you to expand your knowledge base beyond the expectations of this programme. Some of them may be for those who are interested in knowing more on a topic and others are for those who seek to specialise in an area.

You are required to select and read the books according to your convenience. You may either read them in the electronic version or, if you can afford, take a print out and read the print version.
